

TECHNICAL DATA SHEET

POLYSEAL CS X3

POLYSEAL CS X3 is an isoprene, polymer and acrylic base aqueous solution, specially designed to confer to a support cold sealing features. This product can be applied, by means of flexography methods or gravure, on supports such as OPP Coex, OPP, PET and AL.

TECHNICAL FEATURES

Solid content	55 ± 5%
Viscosity (CF4 at 25°C)	25-29 sec
Solvent system	water
Aspect	white liquid

ADHESIVE CONTRIBUTION

The recommended grammage, taking into account the work purposes and elements taking part in the process, is ranging between 1 and 3 g/m² dry extract.

PROPERTIES

The reticulated film, fully dried, is transparent, elastic and ageing resistant.

CLEANING

Any part in direct contact with the product should be cleaned with water.

FOOD REPORT

Polyseal range meets legislation concerning material used in food processing: FDA, Part 175, section B, sub-section 175.105
